

Is that Phil Mullins out on the docks again with hammer and nails?

UHYC August Newsletter

Pool News:

With the hot weather upon us, many people will be cooling off in the UHYC pool. Please remember that the pool is private: It is for UHYC slip owners and their guests as well as for the Urbanna Harbour homeowners and their guests. Please be courteous and respectful of both the physical property as well as other members who are trying to enjoy the pool. The UHYC board is attempting to address numerous complaints received. To that end, there will be a new sign-in sheet put in place. Please look for this addition and use it. Thank you.

Maintenance News:

Many thanks to the Maintenance Committee headed by Phil Mullins for their wonderful efforts at trying to keep ahead of needed dock repair! Please feel very free to contact Phil, or any board member, if you spot a dock area that you feel needs attention.

Social News:

Dog Days Bash: What a wonderful get-together that the social committee organized for us all to enjoy last month! The live band was terrific and the food superb! Fred Eddowes worked diligently to pull all of the details together without a hitch. Thanks go to Fred and his committee for bringing our community together for a fun happening! We can all look forward to many more social events in the future.

Parking Issues:

Complaints have been received by the UHYC Board about parking violations at the roundabout at the North Dock. Please be advised that that area is for unloading gear and equipment only; it is not intended to be used as a long term parking area. Violators will receive a windshield warning and repeated violators may find their car towed at their expense. Please be thoughtful of others who are also trying to off load their equipment in closer proximity to the north pier than the designated parking lot. Once you have off loaded your gear, please move your car to the designated parking lot. Thank you in advance for your cooperation in this matter.

Safety Issues:

Lastly, when out on your boat please obey all Coast Guard rules for safety.

New Docks

In the coming weeks our New Dock Committee will be reporting on their progress.

... And continue to have a great summer!
